DETAILED ACTION

Election/Restrictions

Claim 29-46 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 16, 2006.

Drawings

Replacement drawing sheets were received on July 26, 2007. These drawings are acceptable.

Claim Objections

Claims 1 and 24 are objected to because of the following informalities:

Claim 1 is objected to because the last word, "flim" should read, --film--;

Claim 24 is objected to because "tetrapropozysilane", should read, --tetrapropoxysilane--.

Claim 25 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim, or amend the claim to place the claim in proper dependent form, or rewrite the claim in independent form. Claim 25 is dependent upon claim 23, which is dependent upon claim 21. Claim 21 recites the same limitation as claim 25.

Appropriate corrections are required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3-16 and 18-28 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Claim 1 contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention.

The specification does not appear to disclose depositing an interlayer dielectric (ILD) on the wet gel -zeolite composite.

Response to Arguments

Applicant's arguments, filed July 26, 2007, with respect to the applied prior art have been fully considered and are persuasive. The rejections under 35 U.S.C. 102 and 35 U.S.C. 103 have been withdrawn.
